The Parent-Infant Relational Assessment Tool - PIRAT Global Scales Training

Timetable

Day 1

10:00 - 11:30  Parent-infant interaction and assessment of risk factors – theoretical background
               Introduction to the Parent-Infant Relational Assessment Tool (PIRAT) and its development

11:30 - 11:45  Break

11:45 - 13:00  Parent-infant interaction and assessment of risk factors – theoretical background
               Introduction to the Parent-Infant Relational Assessment Tool (PIRAT) and its development

13:00 - 14:00  Lunch

14:00 - 15:30  PIRAT reliability and validation studies
               Introduction to the PIRAT subscales

15:30 - 15:45  Break

15:45 - 17:00  PIRAT reliability and validation studies
               Introduction to the PIRAT subscales

Day 2

10:00 - 11:30  Detailed introduction to the Infant-Parent subscales using video examples

11:30 - 11:45  Break

11:45 - 13:00  Detailed introduction to the Infant-Parent subscales using video examples

13:00 - 14:00  Lunch

14:00 - 15:30  Detailed introduction to the Parent-Infant subscales using video examples

15:30 - 15:45  Break

15:45 - 17:00  Detailed introduction to the Parent-Infant subscales using video examples

Optional:       Research meeting for participants planning to use PIRAT for research

Day 3

10:00 - 11:30  Detailed introduction to the Parent-Infant subscales using video examples

11:30 - 11:45  Break

11:45 - 13:00  Detailed introduction to the Parent-Infant subscales using video examples

13:00 - 14:00  Lunch
14:00 - 16:00       Information about reliability training

Day 4

10:00 - 11:30     Detailed introduction to reliability coding focussing on the screening of risk in the mother-infant relationship, differentiation between subscale codings for “concern” and “significant concern” and codings of the global scores for Parent-Infant and Infant-Parent Scales.

11:30 - 11:45     Break

11:45 - 13:00     Detailed introduction to reliability coding focussing on the screening of risk in the mother-infant relationship, differentiation between subscale codings for “concern” and “significant concern” and codings of the global scores for Parent-Infant and Infant-Parent Scales.

13:00 - 14:00     Lunch

14:00 - 15:30     Detailed introduction to reliability coding focussing on the screening of risk in the mother-infant relationship, differentiation between subscale codings for “concern” and “significant concern” and codings of the global scores for Parent-Infant and Infant-Parent Scales.

15:30 - 15:45     Break

15:45 - 17:00     Detailed introduction to reliability coding focussing on the screening of risk in the mother-infant relationship, differentiation between subscale codings for “concern” and “significant concern” and codings of the global scores for Parent-Infant and Infant-Parent Scales.
