

# PIRAT training

## Programme

### Day 1

10:00 - 11:30	Parent-infant interaction and assessment of risk factors – theoretical background Introduction to the Parent-Infant Relational Assessment Tool (PIRAT) and its development
11:30 - 11:45	Break
11:45 - 13:00	Morning continued.
13:00 - 14:00	Lunch
14:00 - 15:30	PIRAT reliability and validation studies Introduction to the PIRAT subscales
15:30 - 15:45	Break
15:45 - 17:00	Afternoon continued

### Day 2

10:00 - 11:30	Detailed introduction to the Infant-Parent subscales using video examples
11:30 - 11:45	Break
11:45 - 13:00	Morning continued
13:00 - 14:00	Lunch
14:00 - 15:30	Detailed introduction to the Parent-Infant subscales using video examples
15:30 - 15:45	Break
15:45 - 17:00	Afternoon continued
Optional: research	Research meeting for participants planning to use PIRAT for

### **Day 3**

10:00 - 11:30	Detailed introduction to the Parent-Infant subscales using video examples
11:30 - 11:45	Break
11:45 - 13:00	Morning continued.
13:00 - 14:00	Lunch
14:00 - 16:00	Information about reliability training

### **Day 4**

10:00 - 11:30	Detailed introduction to reliability coding focussing on the screening of risk in the mother-infant relationship, differentiation between subscale codings for "concern" and "significant concern" and codings of the global scores for Parent-Infant and Infant-Parent Scales.
11:30 - 11:45	Break
11:45 - 13:00	Morning continued
13:00 - 14:00	Lunch
14:00 - 15:30	Morning continued
15:30 - 15:45	Break
15:45 - 17:00	Morning continued
